The Diagnostic Radiology Milestone Project

A Joint Initiative of
The Accreditation Council for Graduate Medical Education
and
The American Board of Radiology
The Diagnostic Radiology Milestone Project

The Milestones are designed only for use in evaluation of resident physicians in the context of their participation in ACGME accredited residency or fellowship programs. The Milestones provide a framework for the assessment of the development of the resident physician in key dimensions of the elements of physician competency in a specialty or subspecialty. They neither represent the entirety of the dimensions of the six domains of physician competency, nor are they designed to be relevant in any other context.
Diagnostic Radiology Milestones

Timothy Brigham, MDiv, PhD
Milestone Reporting

This document presents milestones designed for programs to use in semi-annual review of resident performance and reporting to the ACGME. Milestones are knowledge, skills, attitudes, and other attributes for each of the ACGME competencies organized in a developmental framework from less to more advanced. They are descriptors and targets for resident performance as a resident moves from entry into diagnostic radiology residency through graduation. In the initial years of implementation, the Review Committee will examine milestone performance data for each program’s residents as one element in the Next Accreditation System (NAS) to determine whether residents overall are progressing.

For each reporting period, review and reporting will involve selecting the level of milestones that best describes each resident’s current performance level in relation to milestones. Milestones are arranged into numbered levels. Selection of a level implies that the resident substantially demonstrates the milestones in that level, as well as those in lower levels (see the diagram on page v). A general interpretation of levels for diagnostic radiology is below:

**Level 1:** The resident demonstrates milestones expected of one who has had some education in diagnostic radiology.

**Level 2:** The resident is advancing and demonstrating additional milestones.

**Level 3:** The resident continues to advance and demonstrate additional milestones; the resident consistently demonstrates the majority of milestones targeted for residency.

**Level 4:** The resident has advanced so that he or she now substantially demonstrates the milestones targeted for residency. This level is designed as the graduation target.

**Level 5:** The resident has advanced beyond performance targets set for residency and is demonstrating “aspirational” goals which might describe the performance of someone who has been in practice for several years. It is expected that only a few exceptional residents will reach this level.
Additional Notes

Level 4 is designed as the graduation target but does not represent a graduation requirement. Making decisions about readiness for graduation is the purview of the residency program director (see the following NAS FAQ for educational milestones on the ACGME’s NAS microsite for further discussion of this issue: “Can a resident graduate if he or she does not reach every milestone?”). Study of milestone performance data will be required before the ACGME and its partners will be able to determine whether Level 4 milestones and milestones in lower levels are in the appropriate level within the developmental framework, and whether milestone data are of sufficient quality to be used for high stakes decisions.

Some milestone descriptions include statements about performing independently. These activities must follow the ACGME supervision guidelines. For example, a resident who performs a procedure or takes independent call must, at a minimum, be supervised through oversight.

Answers to Frequently Asked Questions about the NAS and milestones are available on the ACGME’s NAS microsite: http://www.acgme-nas.org/assets/pdf/NASFAQs.pdf.
The figure below presents an example set of milestones for one sub-competency in the same format as the milestone report worksheet. For each reporting period, a resident’s performance on the milestones for each sub-competency will be indicated by:

- selecting the level of milestones that best describes that resident’s performance in relation to the milestones
- selecting the “Has not Achieved Level 1” response option

Selecting a response box in the middle of a level implies that milestones in that level and in lower levels have been substantially demonstrated.

Selecting a response box on the line in between levels indicates that milestones in lower levels have been substantially demonstrated as well as some milestones in the higher level(s).
### DIAGNOSTIC RADIOLOGY MILESTONES

#### ACGME REPORT WORKSHEET

**Patient Care and Technical Skills (Residents must be able to meet previous year milestones when evaluated at a specific level)**

<table>
<thead>
<tr>

**Possible Methods of Assessment/Examples:**

- 360 Evaluation/Multi-rater/Peer
- End-of-Rotation Global Assessment
- Case/Procedure Logs, including complications
- Direct observation and feedback
- Procedural competency checklists
- Self-Assessment and Reflections/Portfolio
- Simulation/OSCE
### Medical Knowledge

#### MK1: Protocol selection and optimization of images

<table>
<thead>
<tr>
<th>Has not Achieved Level 1</th>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Selects appropriate protocol and contrast agent/dose for basic imaging, including protocols encountered during independent call as defined by the residency program</td>
<td>Selects appropriate protocols and contrast agent/dose for intermediate imaging as defined by the residency program</td>
<td>Selects appropriate protocols and contrast agent/dose for advanced imaging as defined by the residency program</td>
<td>Independently modifies protocols as determined by clinical circumstances</td>
<td>Teaches and/or writes imaging protocols</td>
<td></td>
</tr>
<tr>
<td>Recognizes sub-optimal imaging</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Comments:**

**Possible Methods of Assessment/Examples:**
- End-of-Rotation Global Assessment
- Direct observation and feedback
- Self-Assessment and Reflections/Portfolio
- Core exam
- OSCE/simulation
### Medical Knowledge

#### MK2: Interpretation of examinations

<table>
<thead>
<tr>
<th>Has not Achieved Level 1</th>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>

</table>
| Makes core observations, formulates differential diagnoses, and recognizes critical findings | Makes secondary observations, narrows the differential diagnosis, and describes management options | Provides accurate, focused, and efficient interpretations | Prioritizes differential diagnoses and recommends management | Makes subtle observations and suggestions a single diagnosis when appropriate | Demonstrates expertise and efficiency at a level expected of a subspecialist
Differentiates normal from abnormal | | | |

**Possible Methods of Assessment/Examples:**

- End-of-Rotation Global Assessment
- Direct observation and feedback
- Reading out with resident
- ER preparedness test
- Review of reports
- Rate of major discrepancies
- Core exam

**Comments:**
## Professionalism

### PROF1: Professional Values and Ethics

<table>
<thead>
<tr>
<th>Has not Achieved Level 1</th>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Demonstrates the following professional behaviors:</td>
<td>Is an effective health care team member</td>
<td>Is an effective health care team leader, promoting primacy of patient welfare, patient autonomy, and social justice</td>
<td>Serves as a role model for professional behavior</td>
<td>Participates in local and national organizations to advance professionalism in radiology</td>
<td></td>
</tr>
<tr>
<td>- recognizes the importance and priority of patient care and advocates for patient interests</td>
<td>Demonstrates professional behaviors listed in the second column</td>
<td>Demonstrates professional behaviors listed in the second column</td>
<td>Mentors others regarding professionalism and ethics</td>
<td></td>
<td></td>
</tr>
<tr>
<td>- fulfills work-related responsibilities</td>
<td>- is truthful</td>
<td>- places needs of patients before self</td>
<td>- maintains appropriate boundaries with patients, colleagues, and others</td>
<td></td>
<td></td>
</tr>
<tr>
<td>- recognizes personal limitations and seeks help when appropriate</td>
<td>- responds appropriately to constructive criticism</td>
<td>- maintains patient confidentiality</td>
<td>- exhibits tolerance and acceptance of diverse individuals and groups</td>
<td></td>
<td></td>
</tr>
<tr>
<td>- recognizes personal impairment and seeks help when needed</td>
<td>- fulfills institutional and program requirements related to professionalism and ethics</td>
<td>- attends required</td>
<td>-</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### Possible Methods of Assessment/Examples:
- End-of-Rotation Global Assessment
- 360 Evaluation/Multi-rater/Peer
- Simulation/OSCE
- Direct observation and feedback
- Conference attendance logs
- Timeliness in completing institutional and program requirements

### Suggested Educational Tools:
1. **Teaching and Assessing Professionalism: A Program Director’s Guide by the ABP and APPD** – see Chapter 8: Measuring Professionalism
   - Critical incidents
   - Peer assessments
   - Multi-source assessments
   - Professionalism Mini-Evaluation Exercise (P-MEX)

2. **The Professionalism Mini-Evaluation Exercise:**
   A Preliminary Investigation
   - Richard Cruess, Jodi Herold McIlroy, Sylvia Cruess, Shiphra Ginsburg, and Yvonne Steinert

<td></td>
<td><strong>Verbal:</strong> Communicates findings and recommendations clearly and concisely</td>
<td></td>
<td><strong>Verbal:</strong> Communicates effectively and professionally in all circumstances</td>
</tr>
</tbody>
</table>

**Comments:**

### Possible Methods of Assessment/Examples:
- End-of-Rotation Global Assessment
- 360 Evaluation/Multi-rater/Peer
- Simulation/OSCE (Intradepartmental and Team)
- Direct observation and feedback
- Self-Assessment and Reflections/Portfolio
## Systems-based Practice

### SBP1: Quality Improvement (QI)

<table>
<thead>
<tr>
<th>Has not Achieved Level 1</th>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Describes departmental QI initiatives</td>
<td>Incorporates QI into clinical practice</td>
<td>Identifies and begins a systems-based practice project incorporating QI methodology</td>
<td>Completes a systems-based practice project as required by the ACGME Review Committee</td>
<td>Leads a team in the design and implementation of a QI project</td>
</tr>
<tr>
<td></td>
<td>Describes the departmental incident/occurrence reporting system</td>
<td>Participates in the departmental incident/occurrence reporting system</td>
<td></td>
<td>Describes national radiology quality programs (e.g., National Radiology Data Registry, accreditation, peer-review)</td>
<td>Routinely participates in root cause analysis</td>
</tr>
</tbody>
</table>

**Comments:**

**Possible Methods of Assessment/Examples:**
- End-of-Rotation Global Assessment
- 360 Evaluation/Multi-rater/Peer
- Direct observation and feedback
- Self-Assessment and Reflections/Portfolio
- Semi-annual evaluation with program director
- Written feedback on project (with mentor)
- Project presentation feedback (faculty, peers, others in system)
- Critical incidents reporting and feedback
**Systems-based Practice**

**SBP2: Health care economics**

<table>
<thead>
<tr>
<th>Has not Achieved Level 1</th>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Describes the mechanisms for reimbursement, including types of payors</td>
<td>States relative cost of common procedures</td>
<td>Describes the technical and professional components of imaging costs</td>
<td>Describes measurements of productivity (e.g., RVUs)</td>
<td>Describes the radiology revenue cycle</td>
</tr>
</tbody>
</table>

**Comments:**

**Possible Methods of Assessment/Examples:**
- End-of-Rotation Global Assessment
- Project presentation feedback (faculty, peers, others in system)
- Completion of knowledge-based modules

**Suggested educational strategies:**
- Annual QA session with head of billing
- Institute for Health Care International modules
- Agency for Healthcare Research and Quality modules
### Practice-based Learning and Improvement

**PBL1: Patient safety: contrast agents; radiation safety; MR safety; sedation**

<table>
<thead>
<tr>
<th>Has not Achieved Level 1</th>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><strong>Contrast Agents:</strong> Recognizes and manages contrast reactions</td>
<td><strong>Contrast Agents:</strong> Re-demonstrates recognition and management of contrast reactions</td>
